this monograph proposes 7 principles of human memory these principles are qualitative statements of empirical regularities that can serve as intermediary explanations and which follow from viewing memory as a function

this volume offers an overview of some emerging trends and structural patterns in the development of international law highlighting its evolution over the course of time and discussing leading principles through various different thematic lenses

this book takes an in depth look at how education and psychology relate to each other and at the current state of this relationship through comprehensive analysis of the ideological historical social and professional contexts of this interaction the author develops the theme that despite basic differences in aims the fields are interconnected

this is the first of a two volume series that examines the current eu capital markets regimes and explores codification as a means for achieving a true single market for capital in europe
